Dear Mr. Hoover:

(Ref. Letter Aug. 5 to undersigned)

My interest in those San Francisco events of May 12-14 is that of an insignificant American citizen. Would to God that other Bureaus of the Department, may exhibit a more significant interest. *of Justice*

I am not an old man. But I am old enough to know that Youth can be enlisted in any Cause, and brought to a white heat of enthusiasm in its service. The American youth of that special San Francisco stripe will never be alerted to Communist duplicity. They are already part of it.

I both question and criticize the judicial action taken to close this incident. Somewhere in our Federal Government machinery, there must be a duty to take notice of this kind of contempt of Congressional authority, and bring it to task. If not, your life and your magnificent service to our country have gone for too little. *COMMUNIST TARGET - YOUTH*

Your position on the matters I mentioned was not clarified for me by a study of the Report you sent me. And your letter did not answer my questions. In saying that I mean no disparagement of you, sir, one of our finest Americans. I do not consider myself entitled to any further clarification from a man in your position in our public life. I am grateful for the time and consideration you have given me.

I have expressed to Mr. Walter, the Chairman of the Un-American Activities Committee, the indignation I feel, as a private citizen, unknown to him as to you, at this affront to the sovereign American people by a municipal judge. And I have expressed to him, as to you, a hope that someone in our Government will take effective notice of it.

Respectfully,

With regard to the attached pamphlet, I have been giving considerable thought to possible additional distribution. As you know, we have just received an ample supply of the pamphlets and copies today are being mailed to those on the Special Correspondents' List.

It would appear that this pamphlet should be gotten to the hands of every college president in the United States. Of course, a number are on the Special Correspondents' List but this is far from complete coverage. While I see no particular objection to the Bureau's making these available to college presidents, I think it would be somewhat better if it could be done by some good Bureau contact. At least I think this is worth exploring.

Another thought is that this pamphlet has a message for Latin America and South America. I would suggest that we have it translated into Spanish and that we explore possibilities of getting wide dissemination in Latin and South America. Perhaps someone like Archbishop Cushing who has been helpful in getting the Director's book, "Masters of Deceit" translated into Spanish and distributed to South America could be of assistance in getting dissemination of the Spanish translation of "Communist Target-Youth."

On August 4, 1960, captioned individual wrote to the Director, questioning the facts set forth in "Communist Target--Youth." He enclosed the July-August, 1960 issue of "The Californian" which contained an article entitled "Black Friday!" This article claimed that the picketing of the Un-American Activities Committee was a legitimate activity by patriotic American students and their friends. It went on to say any claims that these pickets were communist led or communist duped was untrue. Allegations were also set forth that there was much police brutality and press distortion connected with the affair. The article called for the abolition of the House Committee.

asked the Director to explain his views and wanted to know whether he was interested in violation of civil rights, press distortion and police brutality.

On August 11, 1960, was sent a copy of the Director's report and a summation of Mr. Hoover's views with respect to the riots. by letter dated August 15, 1960, questioned the reason for "Communist Target--Youth" being printed by the House Committee. He asked if the Committee had been permitted to edit a more comprehensive report and said this knowledge was necessary in order for him to give Mr. Hoover's statements the proper evaluation.

 NOT RECORDED

Both of letters give the impression of thinly veiled hostility toward the Bureau's viewpoint of the matter in question and appears to be prone to belabor the entire issue. It is not believed any benefit will be derived from prolonging correspondence with him and trying to meet his demands that the Director "answer" to "The Californian." If he is using this publication as his guide, nothing we can say is going to sway his opinion and it is not believed he should be allowed to believe his statements. Director to task and making him "explain" every facet of his report.

Dear Mr. Hoover;

Thank you for your letter of August 11th and the pamphlet titled "Communist Target--Youth", which you sent to me in response to my letter of August 4th with a copy of the July-August, 1960, "The Californian" containing an article titled "Police Brutality and Press Distortion", giving an account of the "riot" at San Francisco city hall May 12-14, 1960.

Send back
I have a question to ask concerning it. The front cover is printed "A REPORT BY J. EDGAR HOOVER"; however, at the bottom is the statement "Published by the House Committee on Un-American Activities". This is confusing. Is this an edited version of a more comprehensive report issued by you? Why has the Committee published it instead of the FBI? I believe you will agree that this knowledge is necessary for a proper evaluation of the pamphlet.

Your letter of August 4, 1960, with enclosure, has been received, and this opportunity to make my views known to you is welcomed.

I am enclosing a copy of my report concerning the demonstrations against the House Committee on Un-American Activities hearings in San Francisco during May, 1960. An analysis will show its purpose was not to defend the activities of the House Committee on Un-American Activities, nor was it prepared for political reasons.

This report was written to alert responsible citizens to the plans and tactics of the Communist Party, USA, to exploit our youth and to take advantage of every possible public event. The communist movement relentlessly seeks areas of controversy and with practiced methods agitates to turn these situations to its advantage by fomenting discord and encouraging irrational action, deceitfully hoping to destroy all grounds for sound progress. RE: COMMUNIST TARGET - YOUTH

The communist strategy and tactics in the riots which occurred during the House Committee on Un-American Activities (HCUA) hearings in San Francisco in May, 1960, show how some of the youth in this nation can be led into riotous action by a handful of agitators. The Communist Party is ever active to infiltrate and influence youth groups.

Since many of our summer employees will shortly be resigning from Bureau employment in order to return to or matriculate in colleges, the Bureau desires to warn these young people of some of the dangers of associating with questionable persons and groups.

I desire that all summer employees who are returning to or matriculating in colleges receive a briefing in this connection on Tuesday, August 30, 1960, Room 5240, Justice Building. Three separate briefing sessions will be held on that date commencing at 9:00 AM, 1:00 PM, and 3:00 PM.

It is believed that an interesting and inspiring talk could be built around the above suggestions. With these young people going to various schools and colleges throughout the country, it is very possible that such a talk, through them, may reach a large number of other students. It may possibly, in some small manner, prevent some of these persons, currently FBI employees, from becoming victimized as were many of the students in San Francisco.

By letter dated July 31, 1960, captioned individual wrote the Director that he had read of the Director's statement, "Communist Target--Youth," relative to the San Francisco riots. [REDACTED] was critical of Judge Albert A. Axelrod, the judge who tried students who were arrested during the demonstration. He asked the question as to whether the judge was guilty of misfeasance and whether the Bureau had any authority to move in against a judge. By letter dated August 5, 1960, a letter was sent to Colonel [REDACTED] enclosing a copy of "Communist Target--Youth." It was pointed out to him that the purpose of the publication was to alert American youth to the tactics used to dupe them into unthinking and unlawful actions. It was further pointed out that the Director believed his position would be clarified from a review of the entire report. His specific questions were not answered purposely in view of their nature and the fact that in reading excerpts of "Communist Target--Youth" he had apparently misinterpreted the Director's statement. He now writes the Director under date of August 10, 1960, still questioning and criticizing the judicial action taken and indicating that the Director's position was not clarified; however, he was grateful for the time and consideration given him and did not consider himself entitled to any further clarification.

It is felt that no purpose would be served in acknowledging this letter and to answer it would put the Director in the position of either criticizing, upholding or taking no stand on the judge's decision.

RECOMMENDATION:

That no acknowledgement be made.

The Honorable J. Edgar Hoover
Director , FBI
Washington, D.C.

Dear Mr. Hoover:

I would like to commend you on your report of the San Francisco riots. If every citizen could read this report, I am sure this country would have a rude awakening as to how far we have gone on the road to communism. And if these same citizens could see the movie of the riots, I am certain they would be further convinced of the terrible danger we face.

COMMUNIST TARGET-YOUTH

I am also certain that the only non-elected official of any importance that I have any confidence in is yourself, as far as unswerving loyalty to this nation is concerned and I might add that my friends who are aware of our nation's sad plight are in agreement. It will be a black day for the United States of America when there are no longer any J. Edgar Hoover's. Keeping in mind the busy job you have, I do not expect an answer to this letter.

Re my memo dated August 12, 1960, captioned as above, on which the Director approved our having "Communist Target-Youth" translated into the Spanish language for dissemination in South and Central America. At present we are working on getting the booklet, "Cooperation--The Backbone of Effective Law Enforcement," issued in the Spanish language, and it previously has been approved having the Government Printing Office set this item in Spanish type for us with the Exhibits Section to do the actual layout. Since we have no varitypist capable of setting Spanish type, it is felt this same procedure should be followed in connection with "Communist Target-Youth."

RECOMMENDATIONS:

1. That this matter be referred to the Cryptanalysis-Translation Section of the Laboratory for translation of the item into the Spanish language. (A copy of the booklet is attached).

2. That, following translation, we have Government Printing Office set the type for us.

Dear Mr. Hoover;

Along with many other Americans, I wish to thank you for the superb report on the San Francisco riots. My only regret is that more people do not have the opportunity to see this pamphlet, Communist Target -- Youth and to read your report. It is hard to realize after your report and seeing the film that this sort of thing can actually happen in our wonderful Country. I do indeed regret that the "press" did not see fit to give coverage to such an incident.

Please do not feel obliged to respond to my note, for I only want to thank you.

Mr. J. Edgar Hoover
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Hoover:

We want to express our appreciation for the wonderful work you and your department does to protect us and our beloved Country. Congratulation on the pamphlet "Communist Target - American Youth".

We have seen the films made of the newspaper pictures subpoenaed by the House Un-American Activities Committee of the San Francisco - Oakland Bay Area student riot - they are frightening.

We are doing all we can to have our Church and School P.T.A.'s and other organizations show this alarming spectacle.

I have been a little depressed because of the opposition of our minister to showing these films. His thinking is that the Un-American Activities Committee's files are not up to date and in this sense they are political and reflecting on innocent people.

Mr. Hoover, we hope you are able to check on our State Department organization - the last thing we would want would be a witch hunt but it would be dangerous for the pendulum to swing the other way.

People believe in you and listen to you, please warn us again and again of the things we should do.. We are not in the least complacent - but busy working and keeping house and trying to help with the children and grand children when possible.

Thank you again for your wonderful work. No reply expected.

Sincerely

Mr. DeLOACH instructed that a copy of captioned document be placed in the hands of each college and university president throughout the United States. He suggested that SAC contact [redacted] (Bufile 94-4-2940), who be permitted to handle this. [redacted] agreed. A short note pointing up the fine work of FBI Director J. EDGAR HOOVER and continuing concern regarding Communist challenges, bearing [redacted] name, has been attached to each document.

Consequently, [redacted] suggested that the document also be made available, at his expense, to the following:

1. All newspaper editors, publishers and city editors in the United States.
2. All officials of the Ohio State Government.
3. All high school principals, superintendents and officials in the Greater Cincinnati area.
4. Top flight industrialists throughout the United States.

The exact wording of [redacted] printed note attached to each document is as follows:

"Communism is a continuing concern and challenge to the security of the United States. FBI Director J. EDGAR HOOVER has done a splendid job, and I thought you should see his startling statement captioned 'Communist Target-Youth'. A copy is attached. I am sure Mr. HOOVER will welcome your observations."

Dear Mr. Hoover;

I would like to congratulate you on the excellance of the House Un-American Activities Committee pamphlet entitled, COMMUNIST TARGET---YOUTH, which you were instrumental in having compiled. Here in Houston last Wednesday night the Junior Chamber of Commerce sponsored a program comprised of Martin Dies as speaker and the film, OPERATION ABOLITION. Both of these informative events come at a most critical time.

I have noticed with dismay articles in our paper mentioning or insinuating the fact that you may be considering retiring as head of the FBI. I sincerely hope that you will try to maintain your position at least until you reach the age of 70. We fear the possible political nature of the FBI after you are gone. Please do everything in your power to prevent its being converted into the MKVD.

Do not feel that you need to answer my letter, as I am interested only in letting you know of my tremendous admiration for you and the good work that you have done.

God bless you and keep you.

Respectfully yours

CCS/O

Dear Mr. Hoover:

May I congratulate you and thank you
for your excellent report on the San Francisco
Riots, released in the pamphlet Communist Target--
Youth.

Everyone has great respect for you and your
organization. May God grant you the courage and
wisdom in this great work of helping our country
to remain free.

The film "Operation Abolition," is being
shown almost daily in Houston to as many interested
groups as possible. I believe it also is doing
much to awaken the citizens to the sinister and
brazen efforts of the conspiracy to destroy us
from within.

No reply is necessary--just want to express
my thanks.

Dear Mr. Hoover:-

I have just finished reading your report on Communist strategy and tactics in the San Francisco rioting and wish every thinking American might have the opportunity to read and digest it. If only our children from Kindergarten up could be taught love of our Country and pure Americanism, they might have the answers when such men as Brown and Brodsky approach them with the ^{ir}communistic ideas!

I am taking this opportunity to express my appreciation to you and the devoted men who serve with you for your dangerous work in helping to retain our precious freedom. Be assured there are countless numbers of us! Do not attempt a reply to this for I know you are burdened with more important things.

This letter is to express appreciation for you and your work, and to congratulate you on the excellence of your report on the San Francisco riots contained in the pamphlet, COMMUNIST TARGET - YOUTH, released last month by the House Un-American Activities Committee.

We have read this pamphlet and circulated it among our friends, and we have ordered several copies to circulate. It is shocking to realize that so many of our people are so complacent as to allow this to happen within our "free America".

Please do not take the time to acknowledge this letter. We do not expect this from such a busy person; but we are expressing gratitude where it is due from many friends as well as ourselves.

Dear Mr. Hoover:

① We want to thank you for your report which appears in the House Un-American Activities Committee report "Communist-Target Youth". The very excellent information and presentation, we feel, will awaken many who previously were not aware of the very alarming situation of infiltration of communists and their propaganda among our youth.

Be assured that the bulk of American people and all patriotic Americans are grateful for your work and back you in every way possible. May the Good Lord continue to bless you both spiritually and in your good fight against Godless-atheistic communism.

Dear Mr. Hoover,

I wish to compliment you on the wonderful service you have done your country as Director of the F.B.I. You have molded the organization into a group that is respected by all patriotic Americans and feared by all criminals, national and international. Your name will be linked in history with Washington, Lincoln, Nathan Hale, and Mac Arthur.

I wish to compliment you in particular on the excellence of your report published by the House Committee on Un-American Activities in the pamphlet Communist Target Youth.

Please do not feel obligated to answer this letter. I would sooner have you direct your energies to the job you are doing so well.

Honorable J. Edgar Hoover,
Federal Bureau of Investigation,
Washington, D.C.

Dear Mr. Hoover:

Permit me to add my sincere congratulations to the many you must be receiving on your excellence of reporting on the San Francisco riots before the House Un-American Activities Committee, resulting in the recently published pamphlet, entitled COMMUNIST TARGET -- YOUTH. Also on a film, which I was privileged to view in Houston last night, showing these riots and unbelievable Communistic brazenness.

May God bless you in your splendid efforts toward trying to awaken all Americans to this threat and may your strength and health allow you to remain in your present position, although I have read in the papers that you will be eligible to retire soon, America needs you more today than ever before and it seems to me that your efforts are bearing some fruit for more people every day are awakening and trying to help stamp out this menace - pray God we are not too late!

Sincerely,

Mr. J. Edgar Hoover,

Dear Sir:

Congratulations on your report concerning the riots in San Francisco. I read an article in the World News Report a few weeks ago which evidently was extracted from your report.

Recently I attended a School on Anti-Communism held in this city and sponsored by our daily newspaper. Attendance averaged approximately twelve hundred per day for five days. A movie on the San Francisco riots was shown. It is too bad that every American cannot have the opportunity of viewing this movie on the major networks.

I do not expect an answer to this letter.

Respectfully,

Commander, USN (ret)

Dear Mr. Hoover:

Having just finished reading your concise but fact-filled report "Communist Target -- Youth," I feel that I owe you a sincere "thank you" for helping to make the public aware of the true story of this unhappy occurrence. I have purchased two copies of the report from the Government Printing Office and plan to keep them circulating among friends and neighbors to help convince the doubters who still think "it can't happen here."

I am also looking forward to seeing the film report on this riot. As you probably know, it was shown at the recent "Education for American Security" school held at the Naval Air Station here in Glenview but I was unable to arrive early enough to see it. However, I am sure it will be shown soon again in this area and I shall make every effort to be there -- along with as many friends as I can line up.

Please continue your hard work in this fight against those who would destroy us. There are many of us who deeply appreciate your efforts and are trying to help in the many small ways that we can.

Cordially yours.

Dear Mr. Hoover:

I have just finished reading your report COMMUNIST TARGET-YOUTH published by the HCUA. It should be an eye-opener to anyone who is willing to have his eyes opened.

That these hoodlums (and worse!), who resort to any means in their efforts to destroy our form of government and our way of life, should be allowed to break up a government investigating committee, making it necessary for the Committee members to make their exit through the back door, is a disgrace and something that should not be tolerated.

Are we powerless to do anything about it?

The attached article WHY NOT QUARANTINE THEM by David Lawrence offers some very constructive suggestions which our government might take note of--in addition to quarantining them in other places, they should be outlawed in this country and their leaders (Bridges, Brown, et al) should be jailed.

Sincerely,

WHY NOT "QUARANTINE" THEM?

BY DAVID LAWRENCE

article in U.S. News and World Report 7-25-60

~~THERE IS A POWERFUL ALTERNATIVE TO WAR WITH~~
Khrushchev.

It doesn't require military demonstration or action.

It brings into play a greater force—the moral force of the free world.

It is what is known as the policy of "quarantine."

The concept was expressed in October 1937 in a speech in Chicago by President Franklin D. Roosevelt. It was aimed at Hitler's threats and aggressive acts. The policy was stated by Mr. Roosevelt as follows:

"It seems to be unfortunately true that the epidemic of world lawlessness is spreading.

"When an epidemic of physical disease starts to spread, the community approves and joins in a quarantine of the patients in order to protect the health of the community against the spread of the disease."

Unfortunately, our friends in Europe hesitated. Some were carrying on a profitable munitions trade with the very government that was two years later to attack them. The tragic fact is that economic weapons were not employed effectively as government after government declined to use the embargo as a means of isolating the aggressor.

The "quarantine" policy as it would be applied now, would be aimed not at the people of the Soviet Union but at their tyrannical rulers who are bent on dragging the nations of the world to the brink of a nuclear war.

The first step is to call on the Soviet Union to get out of the Western Hemisphere, where it has all but taken possession of the Cuban Government.

The next step is to demand that international Communism get out of all countries of the free world.

Unless the Soviets discontinue their hostile acts, the only recourse the United States has is to withdraw recognition from the Soviet Government and to sever diplomatic relations altogether.

This means that the Soviet Embassy in Washington would be abolished as the center of the most extensive apparatus of infiltration and espionage the world has ever known.

It means, of course, withdrawal of our Embassy and its staff from Moscow, but it also means, if it is to be effective, that diplomatic relations with the satellite governments must also be broken off.

This would create new problems for Premier Khrushchev and would help to stir up discontent inside those countries which are yearning for the time to arrive when they can throw off the Communist yoke.

By "quarantine," moreover, is meant the cutting off of commercial and financial intercourse with the Soviet Union and the closing of all our seaports and airports to the ships and planes of the Communist bloc.

Our allies in Europe may hesitate to go along with us, but sooner or later, as the gravity of the situation dawned on them, they, too, would find it necessary to help isolate the Soviets.

Certainly we should persuade as many Latin-American governments as possible to get rid of all Communist ties and to cut off diplomatic relations with Moscow. What the Soviets have done in Cuba, they can do in every country in this hemisphere, from Canada to Argentina.

The Communist dynasty carries on its devilish work by the use of gold converted into American and European currencies. The time has come to block international exchange and disrupt the mechanism by which Moscow reaches into countries of this hemisphere as well as Europe, carrying on subversive acts in violation of every pledge given by the Soviet Government when it obtained diplomatic recognition from the United States in 1933.

Nearly every manifestation of so-called "nationalism," whether in Japan or Korea or Cuba or the Congo, has back of it to some extent the money and intrigue of international Communism.

The downing of 17 of our planes by the Soviets, with a loss of 91 lives, reveals a serious breach of international law by the Communist regime.

We entered World War I to assure freedom of the seas and to protect Americans traveling in international waters.

Just as the high seas are free to everybody, so is the air over the seas also free.

Shall there be no redress of the wrongs committed by the Soviets against American citizens traveling the airways?

A "quarantine" means isolating the virus of evil in the international situation and preventing the germs of an epidemic from spreading into the free world.

We don't want a nuclear war, but we also cannot tolerate the world-wide operations of the Communists in the "cold war" which is slowly dragging us to the precipice of a hot war. The "quarantine" offers us a course of peace with honor and enables us to call on the peoples of the free world to emulate our example in a crusade for human freedom.

Mr. J. Edgar Hoover
Director
Federal Bureau of Investigation
Washington D. C., U. S. A.

Dear Mr. Hoover;

I have read and studied with grave concern, your report of the communist inspired demonstrations in the San Francisco area against our House Committee on Un-American Activities. I am so concerned and alarmed, because it involved our supposed American youth. Mr. Hoover, I am only 23 years of age, and since the day I became of age to vote, I have never missed an election that I was permitted to vote in. I believe in our Nation, its Government and the Principles of Democracy on which it was built. It was at one time my ambition to become a doctor of psychaietry, but now I feel I must lay aside my ambitions, and desires for self, and live and die for the principles of my country. Therefore Mr. Hoover, I offer my life, if its is necessary, to America. I have only one regret in making this offer, and that is that I can die only once for Democracy and America, but had I more than that to offer I gladly would give my all. I have arranged with various churches to address their young people as well as the parents on this matter of Youth being a target for the Communist. I belive that in America as well as having youth who are dedicated to Communism, we have youth who are equally as dedicated to the cause of Democracy, and if necessary would die for our country, and its freedoms.

I am very optimistic in my efforts, as well as Christian youth have more in our favor than do the communist, because we have our Faith in a God who has never lost a battle, and who will lead us and our Country on to victory in this crucial hour of history, if we will just let Him. Washington won our Independence with a comparatively small numbers of men dedicated and believing in a Cause, therefore, they had two main assests for victory; their faith and trust in the Almighty, and faith in one another, as well as faith in the purpose for which they fought. Surely we still have Americans with that same fortitude today.

Mr. Hoover it is with sincere appreciation, and with great pleasure and pride that I offer myself for the service of your department and my country, for any duty if it be no more than sweeping floors, or passing out la aflets; to fight against the evils of communism. I have already been knocking doors, from early morning, to late evening persuading people to vote and awaken to the need of the hour. I am

not satisfied with this as being sufficient enough for the great privileges that I have enjoyed the last 23 years as a citizen of the United States, therefore I am assuming the responsibility of informing our youth on the different approaches that communist use, in trapping them. Your bookelts have been most informative, and helpful, and may I say that I admire, as well as appreciate you and our F. B. I. I don't think we will ever have another man who was more dedicated to his work than you have been to yours.

If you have leaflets, bookelts, etc than you would like for our Youth groups to circulate among the high schools, colleges, etc, we are ready to begin now. Also if you can supply me with any additional information on Communism, then I shall greatly appreciate the information, and will see that it is conscientiously and prayerfully given to our people.

Trusting this to be satisfactory to you, and with deepest gratitude for your work in protecting my freedoms, I remian,

Dear Sir:

I have just finished reading the pamphlet entitled COMMUNIST TARGET-YOUTH. I wish to congratulate you for the excellent report which you made in the pamphlet. The report which you delivered therein particularly interested me for I just graduated from the University of Arizona Law School last spring and I am extremely disturbed about Communist infiltration and subversion in our educational institutions.

I wish to make it clear that I do not expect a reply to this letter as I know that you are extremely busy. However, I have a great desire to do anything possible to help fight Communism in any way which I possibly can and I promise to contribute in any way which I can to the prevention of the Communist "Operation Abolition" and to thwart any attempt to discredit your name or the activities of the Bureau and the House Committee on Un-American Activities.

Congratulations again on your excellent report and your name will never be smeared in this area.

Yours very truly,

COMMUNIST TARGET-YOUTH M 3-1

Dear Mr. Hoover:

We want to take this opportunity to thank you for your series of articles which the Escondido Times Advocate recently printed. We are both concerned with the growing menace of communism and have wondered what we could do to help enlighten some of our complacent friends -- as well as ourselves.

One day my husband was talking with a man of this town and he invited us to attend a meeting of the John Birch Society. We have attended 2 meetings and have found much food for thought. Our concern is this: we want to make sure that we are doing the right thing. We are inexperienced in this type of thing and want to have your assurance that this Society of the right kind of association for us. We have read that many people, intelligent and well-meaning, have associated themselves with projects and organizations which have sounded fine only to discover later that these organizations were not what they seemed to be on the surface.

We have no reason at all to believe that this Society is not fighting communism, but we would feel much better if we had your opinion. We have four children whose security in a free country means so much to us.

Thank you very much.

Very truly yours,

READERS' OPINIONS

Urges Reading of Book By Hoover on Reds

I would like to thank The News for recently printing the report of J. Edgar Hoover on the student riots in San Francisco, which were planned by Communist Party and carried out with the help of college students.

Any American who loves his country and desires to see his country remain free should not waste another minute in sending for the booklet by Mr. Hoover, "Communist Target — Youth."

This report, which is as readable as a good detective thriller, is enough to make parents really stop and think and then act.

It is essential that every thinking American inform himself on the menace of communism. The Patrick Henry League is a non-profit, non-partisan, educational organization dedicated to the fight against communism via promulgation of the truth.

If you will send a self-addressed, stamped envelope, they will be glad to send you an introductory leaflet. The address is Box 383, Main Post Office, Yonkers, N. Y.

The report covers the period from January 1, 1960 through September 1, 1960. The following was included in the report: "The Communist success in the student riots during the May hearings of the committee in San Francisco proves that it can happen here, J. Dear

I have received your letter postmarked September 13, 1960, concerning my report on the demonstration which took place at the hearings of the House Committee on Un-American Activities in San Francisco.

Your expression of confidence in our work is most reassuring, and I am enclosing some material on the subject of communism which may be of interest to you.

Dear Mr. Hoover,

Your report in the pamphlet "Communist Target--Youth" was certainly clear, well-prepared, and timely. Just wanted to let you know how much I appreciate your untiring efforts in exposing the communists in their varied activities. If it had not been for you and a handful of men like you these god-less murderers would probably have already taken over our beloved Country.

Please don't take the time to acknowledge receipt of this letter. Use that time instead in protecting people like myself and my family. I sincerely hope that someday an enlightened American public will show you the kind of gratitude which you deserve.

God bless you and keep up the good work.

Very gratefully yours,

Honorable J. Edgar Hoover,

Dear Mr. Hoover:

You have been doing and are continuing to do such a magnificent job for these United States that, as an American citizen who would like to in some way do my part to stem this tide of Communism that threatens us and as a member of the John Birch Society, I want to congratulate you and ask God's richest blessings on you.

Particularly do I congratulate you on your reporting of the San Francisco riots before the House Un-American Activities Committee, which I was privileged to view here in Houston through the efforts of the Houston Junior Chamber of Commerce. If possible I should like to have a copy of the pamphlet, "Communist Target - Youth", which I understand has been published.

Another pamphlet, credited to you, was printed on the front page of the September 11th issue of St. John The Divine Episcopal church paper, "J. Edgar Hoover to Parents," and, if I am not asking too much, I would certainly like to have some of these messages. The young mothers and fathers in our city are becoming more and more aware and alert to our danger and I should be glad to have some of these to distribute to them.

Please know that your efforts are appreciated and all Americans owe you a debt far out of proportion to whatever you may receive. May God give to you health and the will to continue in your good work.

Sincerely,

Dear Mr. Hoover,

Re: Communist Target - Youth

Let me commend you and your organization upon your work and the presentation of the facts in the recent student riot. I read the article in the U. S. News and World Report and have ordered copies of the pamphlet from the government printing office. Your hard work and your devotion to duty, even though at times it seems most of the people don't want to know, is a comforting thought to us who really want to help. Recently I joined the John Birch Society and though Mr. Welch does not want us to mention the society publicly as a pressure group, in this particular case, he gave us permission to do so. As a private citizen and as a member of the John Birch Society, I thank you. We study communism and how they work and hope for results in combating it.

Yours very truly

Dear Mr. Hoover:

You are indeed to be commended for your wonderful report on the San Francisco riots. As one grateful American, I do commend you.

It is so urgently necessary that the American people come to better understand the true nature, the scope and the seriousness of the gigantic communist conspiracy against them and all of the truths and ideals which they hold dear. To further such understanding on behalf of the people is to reveal the devious means they use and the occasions on which the means were used. Your report is a significant contribution to that end.

This revelation would be most effective were it a continuing thing on behalf of your department. May I respectfully suggest that you consider making it so.

Dear Mr. Brennan:

Before I start begging for a copy of the FBI Notes on the San Francisco Riot, I would like to say that the whole Seminar on American Strategy was tremendously impressive and your part was extremely well played. Thanks for a job well done.

There are still many questions that arise, mostly political, I guess, but they are not stopping us from trying to butt heads with the problem. We are anxiously awaiting receipt of copies of your lecture as well as the others, but if I know the Army, that may be months. We have ordered the film of the Riots and if I remember correctly you stated that your organization had notes on this operation that would help explain the film and its background. We certainly would appreciate receipt of this data if at all possible.

Thanks very much for your assistance in my enlightenment. If you get out this way I hope we can get together again.

Yours sincerely,

Dear Mr. Hoover,

I have just recently heard about your pamphlet, "Communist Target--Youth," and what a superb job you did in this report of the San Francisco riots. Since I am a teenager, fifteen years old, I have a special interest in what the communists are doing to the youth of America. Although I do not know half of the story, I am aware that I know a considerable more about how the communist have infiltrated America than most people, younger or older than I.

I read your book "Masters of Deceit" and thought it was excellent! I have become very interested in the F. B. I. and how you all are helping to fight communism. If you could please send me a copy of your pamphlet "Communist Target--Youth," I would be very appreciative. I am know you probably have been showered with many similiar requests, so if you would enclose the cost of mailing and of the pamphlet I will be more than happy to help do my small part.

Congratulations again on a fine job and lots of luck in the future!

The John Birch Society was organized by Robert Welch in December, 1958 at Indianapolis, Indiana. It is allegedly an anticommunist organization with branches over various parts of the country. Welch has been quite critical of President Eisenhower and his Administration. SAC letter 60-5 calls this organization to the attention of the field and instructs them that any information on their activities should be furnished to the Bureau.

Members of the Society were instructed in their monthly publication to write the Director these letters of congratulations.

To College-University Presidents:

J. Edgar Hoover became so concerned about the Communist deception campaign directed toward college and university students in the United States, that he made an eleven page report related to the so-called "student" riots in San Francisco (May, 1960).

Your local FBI office or agent could give or get for you a copy of this report. You are strongly urged to obtain a copy of the J. Edgar Hoover statement entitled, Communist Target - Youth because it shows a link between the Japanese "student" riots, Cuba, South Korea, Turkey, South America and San Francisco "student" riot demonstrations and incitations.

I was in Tokyo the day after President Eisenhower's press secretary Hagerty was the target of a serious "student" mob situation which endangered Hagerty's life. Approximately ten days later, I was in Tokyo when President Dwight D. Eisenhower did not come to Tokyo because of the so-called "student" riots.

The Recognize Red China formula being used to organize American students is aimed at recognizing Communist China but, like the San Francisco conspiracy directed toward the American college and university campus.

The vulnerability of the American campus is emphasized by the fact that 6000 College, University and Theological Seminary educators comprise the second largest category of Americans whose names have appeared in public print in support of pro-Communist and Communist causes. It is anticipated that the American college and university campus might well experience more agitation effort during the school year 1960-61 than has ever been observed in any academic year . . . all under the guise of peace, brotherly love, or some similar laudible theme. If you think we might have information you desire, your inquiry will be welcome.

Cordially yours

The President

Sir:

Recently, one of our local newspapers has been publishing a series of articles defaming Mr. J. Edgar Hoover. The same paper has also been tearing down the F.B.I. as a whole. After seeing the film "Operation Abolition", which tells about the San Francisco riots, I realized that this paper is in step with the present Communist plan to abolish the F.B.I. the House Un-American Activities Committee and the Loyalty Oath.

I am proud of the F.B.I. and Mr. Hoover. They are able not only to keep abreast of what the Communists are doing and warn about what is happening, but they are able to fight Communism in a very effective way. May they continue until there is no one left to destroy the principles on which our country is based.

Thank you for making it possible for the F.B.I. and Mr. Hoover to protect our country from the dangers of Communism.

Respectfully yours,

Memorandum

TO : DIRECTOR, FBI

DATE: 9/29/60

FROM : SAC, PHOENIX

SUBJECT: PUBLICATIONS

① COMMUNIST TARGET - YOUTH

We have had several requests for copies of this pamphlet, a report made by the Director revealing Communist strategy and tactics in the rioting during hearings in San Francisco, May 12-14, 1960, which we have referred to the U. S. Government Printing Office.

I now have a request from [redacted] Eastern Arizona Junior College, at Thatcher, Arizona, for one copy of this booklet. I think it would be very nice for the Director to send him a copy rather than for this office to refer him to the U. S. Printing Office, and it is requested that the Bureau do this.

It is also requested, if possible, that this office be furnished 50 additional copies of this pamphlet with which to satisfy other requests of this kind where it would be a courtesy to supply the person requesting with a copy directly rather than refer them to the Government Printing Office.

Dear Sir:

We have just finished reading the pamphlet, issued by the House Committee on Un-American Activities, entitled COMMUNIST TARGET - YOUTH, and we want to congratulate you on the excellence of your report. Too bad every interested American cannot have the opportunity of reading it - but we're passing our copy around.

It does seem, though, that since these agitators are known - where and why and how they operate, some action could be taken against them.

We do not expect you to take your valuable time to answer this letter - just accept our thanks for the fine work you and your department have done and are doing, and our best wishes for the future.

Sincerely,

Dear Sir:

The Woman's Club of Temple City is planning to show "Communism on the Map" as an educational program on November 15. We would be most grateful to receive any information such as bulletins, pamphlets, posters for this meeting.

We want to make this the outstanding program of the year by awakening the public to the need of becoming better educated and less apathetic regarding this subject. We are anticipating at least 50 and possibly 100 or more in attendance.

[redacted] of the John Birch Society has recommended the "Target Youth" pamphlet as excellent for distribution. Would it be possible to obtain such for this meeting and if so, what procedure do we follow?

Thanking you in advance for any assistance you may be able to give, as we know it will be of the utmost importance and value to everyone attending.

Dear [redacted]

It was indeed thoughtful of you to write on September 29 concerning my report, "Communist Target--Youth." The remarks of His Holiness Pope Pius XI are certainly apropos.

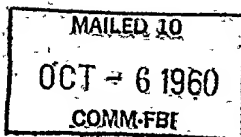

The communist movement has, of course, historically sought the minds of youth. The demonstrations in San Francisco were particularly representative of the deceitful methods employed by the Communist Party to dupe students into unthinking and unlawful action. I believed it important that the true facts behind the riots be made known.

Thank you for your prayers and good wishes.

Dear Mr. Hoover:

I have just read through your timely report, "Com-
munist Target - Youth." May I congratulate you on your
vigorous warning against this Communist tactic. The words
of Pope Pius XI in his 1937 Encyclical, "Divini Redemptoris,"
inveighing against Atheistic Communism came quickly to mind:
"They take advantage of the lack of orientation characteris-
tic of modern agnostic science in order to burrow into the
universities, where they bolster up the principles of their
doctrine with pseudo-scientific arguments." How insistent
they remain.

Praying for your continued success in this insidi-
ous battle and extending every best personal wish, I
remain

On 9-29-60, Senator J. W. Fulbright forwarded a letter dated 9-26-60 he had received from [redacted] with the request that he be furnished necessary information to reply.

① In her letter, [redacted] requested a copy of "Communist Target--Youth" and inquires where she might obtain books entitled "The Naked Communist" and "Collectivism on the Campus."

In March, 1954, Senator Fulbright was placed on the Bureau's "Not to Contact" list as a result of numerous statements he made alleging that the McCarthy Committee was getting secret information from Bureau files. He is now Chairman of the Senate Foreign Relations Committee and the Director approved the recommendation that we continue to conduct investigations concerning staff members of this committee on requests from the chairman.

In view of strictly business nature of Senator Fulbright's letter of 9-29, it is recommended attached reply be approved.

Dear Mr. Hoover:

I received your pamphlet entitled "Communist Target Youth." On page 3 you mentioned the drive to establish a Marxist youth publication, New Horizons. I am very much concerned about this because since 1956 we have entitled the public relations publication of the Missouri School of Religion by this name. This was entered as second class material in the Post Office in 1957, and is a Copyright of the same date.

Please find enclosed the latest publication. We would want to disavow any relationship to the proposed publication in New York City.

Yours very truly,

Seminary Graduates Eight Students

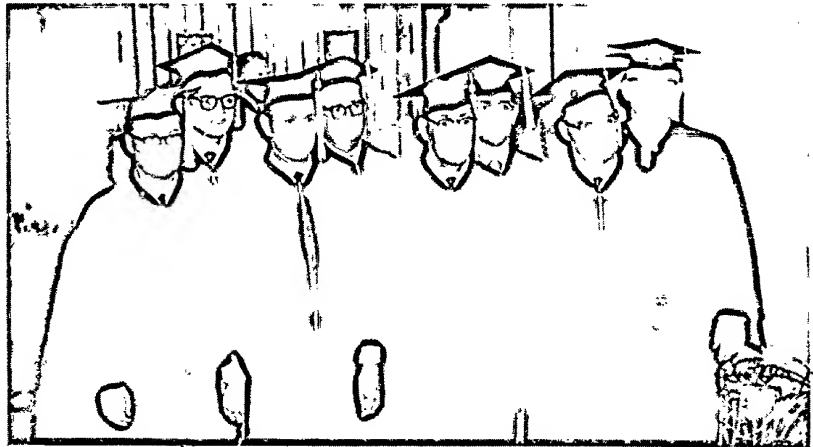

On June 5th, the annual graduation exercises of the Seminary of the Missouri School of Religion were held for eight students at the McMurry Chapel of the Missouri Methodist Church in Columbia.

The speaker at the services was Dr. Lawrence W. Bash, pastor of the Country Club Christian Church of Kansas City. He spoke on the subject, "The Growing Edge of the Universe." Dr. Bash pointed out that man's knowledge of the physical universe was increasing. However, the growing edge is in terms of man's freedom of will to choose or reject the good. This is a character choice and is exemplified in the love of God. The great opportunity of man to grow is in terms of the development of the idea of love of good in the world. At this point the minister is one who proclaims the growing edge of the universe.

The invocation was given by Dr. Herbert R. Loring and the scripture was

ORDINATION OF THREE STUDENTS

Three students of the Seminary of the Missouri School of Religion were ordained in three services this spring. On March 27th, James Hazen was ordained at the Dawn Federated Church. On May 29th, Ralph Peters was ordained into the Christian Ministry at Mt. Olive Christian Church near Macon, Missouri, and on June 12th, Leslie Zimmerman was ordained at the Jonesburg Christian Church.

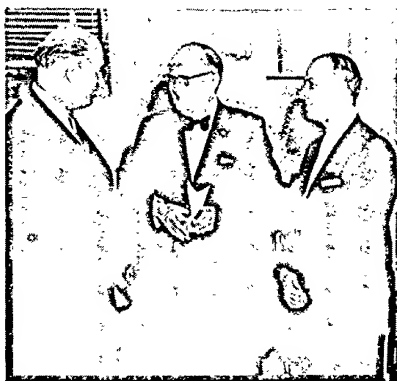

James Hazen was ordained at Dawn on March 27th. The ordination sermon was delivered by Dr. W. W. Towle, state minister of the Congregational-Christian Conference of Missouri. The ordination prayer was delivered by Jack Bodard of the Missouri School of Religion. Mr. Hazen was ordained both into the ministry of the Christian and the Congregational-Christian Church. Marion Rowlen, district minister of the Christian Church participated in the service representing the Christian Church, Charles Churchill, Religious Education Director

of the Presbyterian Synod of Missouri, read the scripture and offered the pastoral prayer. Robert McPherson, pastor of the Christ Evangelical and Reformed Church of Cape Girardeau gave the charge to the newly ordained minister. Other participants in the service were: Harold Reisch, pastor of the Macon County Larger Parish; Rev. Clinton Chasteen, Methodist District Superintendent; Ted Chrystie, pastor of the Carroll County Pastoral Unity and a student at the Missouri School of Religion; Dr. Cassius Street, pastor of the Community Congregational Church of Kansas City.

Ralph Peters was ordained in an impressive service at Mt. Olive. The ordination prayer was given by Lester McKeeman, a graduate of the Missouri School of Religion and a pastor in Macon, Missouri. Harold Reisch presented the candidate and gave the charge. The Scripture lesson was read by Horace Moore of Jefferson City. The

WILLS AND BEQUESTS

In recent months the Missouri School of Religion has received for the endowment fund a will and several bequests. The income from these funds is used to continue beyond a person's life his interest in and support of the program.

In many ways this program can be of benefit to the donor. One way of benefit is the reduction of taxes on the current year or on the estate. Another benefit is in terms of being able to determine in one's lifetime how the result of a life's work will be used.

Another program of merit is that of donating property or stock which has appreciated in value. In this case the donor usually does not have to pay a capital gains tax. In some cases this means that the individual can help the Missouri School of Religion at no cost to himself.

The best advice on such matters is from one's lawyer or a trust officer.

A man recently said that he always told his friends to remember his school in their wills. In several years an institution can be greatly helped by those who continue their giving by remembering the Missouri School of Religion in their wills.

BOONE COUNTY CAMPAIGN

The Annual Boone County Campaign opened on May 9 with a goal of \$12,500. The campaign had resulted in an income to the Missouri School of Religion of nearly \$8,000, by June 10. Several areas of solicitation are not yet reported.

Mr. R. A. Miller is chairman of the Drive. Mr. Ray Lewis handled the business district. Thirty solicitors have worked in this division.

Dean Francis English of the College of Arts and Science and a member of the Board of Trustees, chaired the University group of over seventy solicitors.

Mr. W. H. Gardner has chaired the rural areas. There have been ten workers in this section.

Mrs. Donald Patterson was the leader of a group of women who aided in the mailing of literature and in calling in the residential areas.

It was most encouraging to learn of your action to alert the people of your area to the evils of communism. I have always maintained that community action, a fundamental concept of our society, is most effective in combating communism, and the initiative of private citizens acting without any Government intervention is indeed indicative of the tenets of our American heritage.

Dear Mr. Hoover,

Thank you so much for the "Youth" pamphlets. They have already been passed out at three different meetings. We are showing the Riot film and "Communism on the Map" as often as 4 to 5 times a week, and believe me, people are waking up. Even the Los Angeles Supt. of Schools is becoming aware of the gigantic problem and is showing these films to his staff. He is asking help of the Tues. morning Study Club which has pioneered this study of Communism in the schools. It is hard to come up with a program for schools which could not be infiltrated or taught by the wrong people. They are considering a three day Seminar for the high schools. If, in your capacity, you are able to offer any suggestions as to how to go about setting up some kind of a program for the high schools, would you write me? This could be the beginning of something big which could become national.

Another encouraging aspect is the interest some of the big companies are beginning to take in the Communist conspiracy. Some have bought as many as five films and are showing them constantly. Of course, we are in a Communist hotbed here, and there is always a Linus Pauling to counteract. *Colef*

"COMMUNIST TARGET-YOUTH"

SAC Contact [redacted] at the instigation of Assistant Director C. D. DeLOACH, has distributed to each college president in the United States one copy of captioned publication.

The first few replies have just been received; copies are attached.

Inasmuch as educators are so important in molding public opinion and have heretofore certainly not gone out of their way to understand and help the FBI, it is suggested that the Bureau give consideration to instructing that SACs make personal contact, if they have not already done so, with whichever educators the Bureau believes preferable, based upon the replies.

Please observe that in the letter from [redacted] University of Cincinnati, he advises that he already has 1500 copies of captioned publication for distribution on the campus. These are going to all faculty members, visiting instructors and select senior students. He has informed me within the past few days that he believes educators must take a more firm stand against Communism. He has expressed his high admiration for FBI. Maybe the worm is turning and can be rolled over faster with a push here and there, carefully guided by SACs.

Thank you for sending copies of letters received by [redacted] from a number of college presidents concerning my pamphlet, "Communist Target-Youth." I feel that personal contacts by Bureau representatives of college officials in this connection would be most unwise at this time. These contacts might be misconstrued as a concerted pressure campaign by the Bureau in the educational field.

Dear Sir:

While attending the National Newman Club Convention in Cleveland the last days of August a Father Webster was showing the film Operation Abolition and since returning to Stevens Point where I am Newman Club chaplain at Wisconsin Central State College I purchased the same film for showing throughout the central part of the state at high schools, the local college, and also if possible to students in other State colleges through the Newman Club in those institutions.

[redacted] had received booklets from the US Print Shops through you, I believe, entitled "Communism and Youth" or "Youth, the Target of Communism" or some such like.

I would like to get hold of such pamphlets if possible to give out where we show the film. How can I get hold of them, please?

PS. I have contacted the Agent in Charge in Milwaukee to get someone assigned to speak, if possible, at places where we expect a large attendance.

Best wishes,

NOTED
